Attention: John Provost

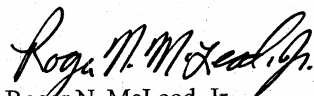

Reference: Fleet Charge

I would just like to announce to the County that Northern Virginia Supply, Inc. is now a distributor of Fleet Charge antifreeze. Fleet Charge is a coolant that is already pre-charged with Penray supplemental coolant additives. As you already may be aware of antifreeze is a very price volatile commodity. At this point in time I would like to quote the County on the Fleet Charge 50/50 product. The 50/50 product is a product that is already diluted with the proper amount of deionized water. This means that there is no mixing to get the proper ratio of product into your vehicles.

Fleet Charge 50/50	BULK	\$ 3.46/gallon
Fleet Charge 50/50	55 gal. Drum	\$ 4.25/gallon
Fleet Charge 50/50	1 gal. Container	\$ 5.19/gallon

As you can see **Bulk** is the most cost-effective way to buy the product. If I can be of any further assistance on this product please feel free to call me at 703-569-7505.

Sincerely,

Roger N. McLeod, Jr.
Vice President
